

# Join schools across the UK to plant a million trees for the Queen's Platinum Jubilee.

Two collectives championing community action - the Million Tree Pledge and One Britain One Nation (OBON) - are coming together to work with schools on a tree-planting initiative to celebrate the Queen's Platinum Jubilee.

Through the Million Tree Jubilee campaign, OBON will play its part in addressing the climate emergency with an initiative that will make a difference for future generations, and leave a lasting legacy to recognise Her Majesty's service & leadership to the nation.

We are asking schools across the UK to support our pledge to plant a million trees, giving every child the opportunity to champion the British value of 'RESPECT' for our environment.

Help us spread the message and share your tree-planting achievements with us!

 @1Britain1Nation & #MillionTreeJubilee

## We need the help of your school.

We would love your school to join the MillionTree Jubilee campaign to help OBON reach its ambitious target. Trees will be planted through our partner Ecologi, a climate action platform working with multiple tree-planting partners around the world.

Trees planted through Ecologi will cost **£0.24** each. Can your school help in raising a sum of **£240** so that we can plant **1,000** trees on your behalf.

## Ecologi is a platform for real climate action.

We're a B-Corp certified platform for real climate action, facilitating the funding of the best climate crisis solutions and tree-planting around the world. Our mission is to reduce 50% of global CO2 emissions by 2040 and responsibly plant millions of trees every year. We created Ecologi so people like you have the opportunity to take real climate action.

Your trees will be planted in Madagascar, Mozambique, Nicaragua, Kenya and Uganda through our partners such as Eden Reforestation Projects, who have an "employee to plant" methodology ensuring your work with Ecologi benefits people as well as the planet. The trees you plant will play a crucial role in the fight against climate change, creating habitats for wildlife and restoring biodiversity, protecting soils and of course, sequestering carbon. Ecologi use 15% of unique purchases towards costs to run the business, the rest goes directly to funding projects and growing our impact. **Find out more: [milliontreejubilee.uk](https://milliontreejubilee.uk)**
